In the space provided, please provide meaningful responses to the following questions – this means that you should use a few sentences to answer each question. It is important to give your true and honest feedback so that I can improve upon the new design of the course for the future and try to change some things for the second part of this semester.

1. Did you like learning through screen casts and videos? Explain.

2. Would you have preferred sitting and taking notes while I taught in front of the class? Explain with some reasons as to why you said yes or no?

3. Did you think that the pace of the course is too fast, too slow or about right?

4. Did you like the due dates of items throughout the units (Mini Quiz, notes, cases, project) or would you prefer everything just be due all at one time?

5. Did you like having the freedom to choose your own topics for the projects? Explain.

6. What was something that you did not like about the course? Explain how this could be improved?

7. What was something that you enjoyed about the course? Explain.
